WOW !!!! This classy Century home with almost 1700 sq. ft and extensive upgrades has been the envy of many over the years. The workmanship, different colours and finishes make this home a joy to show. Drive into the large oversized propane heated garage; step out and carry your groceries into the house. This home comes complete with all appliances and a kitchen that many chefs would love to work in. The 37' x 23' (inside measurement) garage has a second storey multi-purpose room which was used as a games room or sit out on the 11'x9' elevated porch. Sit out on one of several porch areas including a 300 sq.ft. screened in porch, or grill your food on the direct connect propane barbecue under roof. Don't fret when the power goes out because the house has a self start Generac generator that powers much of the house and garage. There is a covered structure which was used to park the camper trailer under to keep it safe from the elements. Also an old barn that could be restored. Enjoy fresh apples or walk the trails on this treed property. The Seller will consider all offers, although some will be considered more than others. (id:50245)
